NOVEMBER 2009
Building Up and Reaching Out

STUDENTS APPRECIATE THE WONDER OF GOD'S CREATION

2 Chronicles 20:21 tells us, "Give thanks for the Lord, for He is good. His love endures forever." On November 10, we had a special visitor on our campus! Our prek-first grade students enjoyed an on-campus field trip with Captain Carl's Mobile Tidepool! Students were able to see, touch, and even hold many of the sea animals Captain Carl brought, which included sea slugs, elbow crabs, sand dollars, and even a baby shark! As a marine biologist, Captain Carl catches these sea animals and then releases them back to their natural habitat after he shares them with students. Thank you God for creating

these beautiful animals to help us learn more about you!

THIRD GRADE CELEBRATES NATIVE AMERICAN DAY!

ALCS third grade students enjoyed a special afternoon experiencing first hand what it was like to live as a Native American child. Their study of the Native American culture culminated in a special afternoon on November 5, 2009. Stations were set up

for face painting, rock painting, corn planting with snacks of dried fruit and beef jerky, pottery making, canoe building, toy design, and more! We know that God has blessed us with the ability to learn and to reason, and appreciate our differences, and we're so thankful for every opportunity He gives us to love one another!
